We Expecting Thousands Visitors, Farmers Visit In Event.

Organic is a holistic production management system which promotes and enhances an ecosystem for a sustainable growth including biodiversity, biological cycles, and biological activity. It emphasises the use of management practices in preference to the use of off-farm inputs, considering that regional conditions require locally adapted systems. This is accomplished by using, where possible, agronomic, biological and mechanical methods, as opposed to using synthetic materials, to fulfill any specific function within the system.

AYURVEDA LIFE

Ayurveda, India's Ancient System of Herbal Product:

Ayurveda Life Ayurveda, India's Ancient System of Herbal Product: Ayurveda is the oldest form of health care in the world. It is considered the sister science of yoga and is said to have originated in India over 5000 years ago, at approximately the same time as the emergence of yoga. It is called the healing science of India and utilizes the blessings of nature and spirit to restore balance to the body. The very uniqueness of Ayurveda is that it does not fight with the body to control disease, but teaches us to harmonize our body and mind with the universal laws of nature, thereby removing the very roots of disease. In Sanskrit, Ayur means life and Veda means knowledge or science, so the literal translation is "The Science of Life". It is based on the one fundamental principle that health is the natural state of an individual as long as his/her body and mind are in harmony with nature (environment). Disease is the outcome of disharmony. Ayurveda is different from other health care systems in that it places emphasis on prevention at the root causes, instead of dealing with symptoms. Ayurveda emphasizes on the importance of food as our herbal, along with yoga, pranayama, meditation, herbal medication, and the cleansing, rejuvenation and detoxification of both body and mind.

WHY UTTARAKHAND

Uttarakhand was formed on the 9th november 2000 as the 27th state of India, when it was carved out of northern Uttar Pradesh. Located at the foothills of the Himalayan mountain ranges, it is largely a hilly state, having international boundaries with china (Tibet) in the north and Nepal in the east. On its north-west lies Himachal Pradesh, while on the south is Uttar Pradesh. It is rich in natural resources especially water and forests with many glaciers, rivers, dense forests and snow-clad mountain peaks. Char-dhams, the four most sacred and revered hindu temples of badrinath, kedarnath, gangotri and yamunotri are nestled in the mighty mountains. It's truly god's land (dev bhoomi). Dehradun is the capital of Uttarakhand. It is one of the most beautiful resort in the submountain tracts of India, known for its scenic surroundings. The town lies in the dun valley, on the watershed of the ganga and yamuna rivers.

EXHIBITORS PROFILE:

Manufacturing Organic Products Organization	Aroma / Essential Oils / Fragrances
